

SUMOMAX

SUMOMAX

High-output ready for Image Based Lighting and virtual production. An interactive lighting tool, fully integrated into current control environments. A modular and versatile light that performs as a keylight, hardlight, punchlight, spacelight, or softlight. The LEDs Our engineering team built upon their previous success to create the full spectrum (RGBWW) 1800-10000K, 650W SUMOMAX. That can also be used in virtual production as an interactive lighting tool. Fully integrated into current control envi...
